Regarding **claim(s) 1 and 16**, in combination with other limitations of the claims, the prior art of record fails to disclose or specifically suggested a behavioral adaptation engine monitors client responses during voice interaction, analyzes the responses for both conduct patterns and mood states, including caller stress, and determines which of a set of optional dialog responses is to be played to the client as a result of the analysis of the client's response.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
